Current Action Items (Work In Progress)

- Frank:
 - Search for Job APIs, create documentation about the APIs, visualize on Postman
 - What we need: designation/role, company, location, salary, description, skills, job type (part-time, full-time, etc), links to apply
 - Begin writing script for Job API after API approval from groupmates
- David:
 - Finish search bar implementation & abstract it to be used in Job section
 - Add and style all necessary filters in housing search
 - Improve search implementation

- Add usability features to ensure user understands their query.
 - Include new housing API that Frank made
- Michael:
 - Streamline Design System
 - Modify CSS files to have organized classes
 - Switch units of CSS variables to be rem instead px
- Vibha:
 - Start designing login page
 - Discuss with the group and then work on its implementation
 - Work on TSLint rules for entire project
